

# SURTAIN

## Retaining Wall System

### Application

- Architecturally inspired for a slimline designer look retaining wall;
- From low height retaining walls to commercial noise barriers;
- Galvanised steel columns provide an effective and economical solution;
- Hot dipped galvanised for long life protection;
- Can be painted to colour co-ordinate with your designer garden.

### Availability

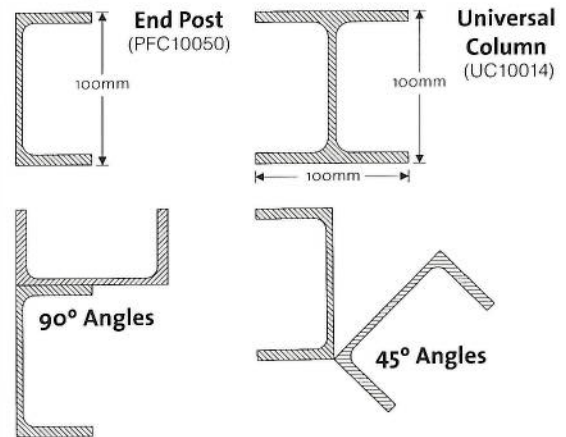

- Universal columns (UC10014) to suit 75mm sleepers available from 900mm – 3600mm (increments of 300mm).
- End posts (PFC10050) sections (8.33 kg/M) to suit 75mm sleepers available from 900mm – 3600mm (increments of 300mm).
- 90° and 45° angles also available to suit 75mm sleepers.
- Larger columns, end posts and angles available.

### Installation

We suggest you contact your local council regarding installation as each application can vary depending on height or soil conditions.

You may require professional advice to ensure safety and long term durability of your retaining wall.
